PRESS RELEASE -For Immediate Release

FAMOS 2025 Launches Globally at ATE Stuttgart and JSAE Yokohama on May 20, 2025

Stuttgart, Germany, and Yokohama, Japan, May 20, 2025 - imc Test & Measurement proudly announces the global launch of **FAMOS 2025**, the latest evolution in data analysis software for test and measurement engineers, at two premier industry events: **Automotive Testing Expo (ATE) in Stuttgart** and the **JSAE Annual Congress in Japan**.

FAMOS 2025 represents a major leap forward with a clear focus on **smarter workflows, faster performance, and enhanced usability**. Introducing a new **AI Assistant** (Beta) that simplifies the creation of complex analysis sequences without coding expertise, and boasting significant upgrades in visualization, automation, and data compatibility, FAMOS 2025 sets a new benchmark for modern engineering analysis.

Key highlights of FAMOS 2025 include:

- **Smarter Analysis:** Build sequences easily with the AI Assistant, new functions for working with timestamped data, and advanced LEQ and sound exposure analysis.
- **Improved Usability:** Streamlined file browsing, intuitive GUI toggling, and faster curve plot configuration.
- **Enhanced Visualization:** Semi-transparent overlays, advanced polar plots, and smart table widget designs for clearer data presentation.
- **Future-Ready Compatibility:** Support for Python 3.13, Numpy 2.0, and easier integration into company-wide workflows.

"With FAMOS 2025, we're not just offering a better tool — we're redefining how engineers interact with their data," said Daniel Foerder, Product Manager at imc Test & Measurement. "Launching simultaneously at ATE and JSAE underlines our global commitment to innovation and user empowerment."

Reference No.: 202501_PR-IMC-FAMOS-2025

Visitors to **ATE Stuttgart** and **JSAE Yokohama** are invited to experience live demonstrations of FAMOS 2025, meet our development experts, and learn how this new release can transform their test and measurement environments. The FAMOS 2025 presentation at the Automotive Testing Expo in Stuttgart will take place at 11am CET at booth 1450, hall 10, with Daniel Foerder, Strategic Product Manager at imc Test & Measurement.

About FAMOS 2025

FAMOS 2025 is designed for engineers and analysts who demand precision, speed, and flexibility. With powerful new features, a modernized interface, and intelligent automation, it delivers a smarter, faster, and more intuitive user experience — ready for the challenges of tomorrow.

Experience the future of data analysis – visit imc at ATE Stuttgart and JSAE Japan on May 20, 2025.

About imc Test & Measurement GmbH

imc Test & Measurement (Berlin) manufactures innovative solutions for test and measurement in research, development, service and production.

It caters to customers in automotive and mechanical engineering and in the railway, aerospace and energy industry worldwide. imc sensors, data acquisition systems and software as well as its integrated solutions enable its users to validate prototypes, optimize products, monitor processes and to gain insights from measurement data in mobile or in stationary applications.

imc Test & Measurement is part of Axiometrix Solutions, a leading test solutions provider comprised of globally-recognized measurement brands, including Audio Precision and GRAS Sound & Vibration.
