Device Series	Category	Charakteristics	Affected Sub-Group	Recommended Substitute	Comment
imc CANSAS Measurement Modules					
µ-CANSAS	measurement modules	miniature, 1-channel	only: connector type "Autsosport"	equivalente models with LEMO.1B connectors or terminals	models with LEMO connectors and those with DIN rail housing are still available, for new purchase and service
imc CANSAS(classic)	measurement modules	predecessor of current imc CANSASflex series	older device series	imc CANSASflex series	current new series with superior capabilities and comparable module portfolio
imc CANSAS-SL	measurement modules	IP65 sealed series with special connector types	older device series	imc CANSASfit series	imc CANSASfit is the new IP65 sealed product line with smnall form factor and click connection
Current Active Data Logger Systems					
imc CRONOScompact	Data logger (DAQ)	compact portable and rack systems	"FVMS" custom specific devices, special version of base unit	standard products of current imc CRONOScompact line	only special custom-specific products affected
imc CRONOSflex	Base unit for Data logger	modular clickable systems	outdated predesessor of current CRFX-2000GP Base unit	CRFX-2000GP	substituted by standard products of current imc CRONOSflex line. Also retrofit available for update to current CRFX-2000GP
imc CRONOSflex	UPS module for data logger	battery power supply for modular clickable systems	UPS based on lead gel technology	current Li-Ion and NiMH versions of UPS	also retrofit available to modern NiMH technology
imc CRONOSflex	amplifier module for data logger	measurement amplifier	charge amplifier	external charge pre-amplifier (voltage out) from 3'rd party suppliers	
imc CRONOS-SL	Data logger (DAQ)	robust and sealed IP65	older device series and custom-specific products	standard products of current imc CRONOS-SL line ("SL-2/4-NIMH")	now with reduced portfolio of module options: limited to UNI and bridge amps with LEMO.1B, NiMH UPS
imc C-SERIE	Data logger (DAQ)	compact DAQ systems based on CRONOS platform	older device series and custom-specific products	standard products of current imc C-SERIES-FD line	current series with superior capabilities
imc SPARTAN	Data logger (DAQ)	medium speed DAQ systems based on CRONOS platform	outdated predesessor of current SPARTAN-N line	standard products of current imc SPARTAN-N line	current series with superior capabilities
Former Data Logger Product Lines					
BUSDAQ-2/-4/-6/-X	fieldbus data logger	predesessor of current BUSDAQflex line	older device series	imc BUSDAQflex series	current series with superior capabilities
imc CRONOS-PC	all-in-one with integrated PC	predesessor of current imc CRONOS platform, until 2007	systems	imc CRONOS platform, imc ARGUSfit (wide selction of different product lines)	
imc CRONOS-PL large	Messsysteme	predesessor of current imc CRONOS platform	all derivatives and special custom devices	imc CRONOS platform, imc ARGUSfit (wide selction of different product lines)	current series with superior capabilities
imc CRONOS-PL small	Messsysteme	predesessor of current imc CRONOS platform	all derivatives and special custom devices	imc CRONOS platform, imc ARGUSfit (wide selction of different product lines)	current series with superior capabilities
µ-MUSYCS	Messsysteme	predesessor of current imc CRONOS platform, until 2005	all derivatives and special custom devices	imc CRONOS platform, imc ARGUSfit (wide selction of different product lines)	phased out 25 years ago
